Summary information

Repository: Arthur H. Aufses, Jr., MD Archives
Title: Mount Sinai Medical Center records
Reference code: AA117
Date: 1872 - 2019 (date of creation)
Dates of creation, revision and deletion: Processed by Adrienne Millon-Levin in December 1990.

Administrative history / Biographical sketch

Note

In 1963 The Mount Sinai Hospital received a charter from New York State for The Mount Sinai Hospital School of Medicine. This later became the Mount Sinai School of Medicine. The School opened to students in 1968. In 2013 the name of the School was changed to the Icahn School of Medicine at Mount Sinai. Initially the Dean of the School of Medicine also served as the President of the newly formed Mount Sinai Medical Center. The first Dean was George James, MD, appointed in 1965. He died suddenly in 1972 and Hans Popper, MD, PhD served for one year until a new permanent President and Dean was found. This was Thomas C. Chalmers, MD.

Subseries AA117.S002.SS002 AA.000970 935514824: Board of Trustees agendas

Creator: Mount Sinai Medical Center (New York, N.Y.). Board of Trustees

Date: April 1967-November 1979 (date of creation)

Scope and content:

This series includes agenda and minutes from the Board of Trustees of The Mount Sinai Medical Center. The original name of the Board was Board of Directors. On April 16, 1979, the Board of Directors of MSMC adopted new by-laws changing their name to Board of Trustees. After this, the Boards only create one agenda for all three groups: the Medical Center, Hospital and School of Medicine. See that series for later records. See also a separate Minutes series.

Subseries AA117.S002.SS013: Board of Trustees records, Levy

Date: 1962 - 1976-10 (date of creation)

Scope and content:

These files are focused on the period 1975-76, with only a few files from other years. Still, they show the type of issues with which the Chairman was involved, including Medical Center personnel and contract matters, fund raising, and interactions with regulatory and government offices. There are also files on internal Board matters. Much of the correspondence is with high level administrative staff, including Thomas C. Chalmers, MD, President and Dean; S. David Pomrinse, MD, Director of the Hospital; and Jack Herman, Vice President for Development.

Copies of the Boards of Trustee minutes were discarded as they duplicate the official minutes already maintained in the Archives.

Language of the material:

English

Immediate source of acquisition:

These records came to the Archives in 1988 along with files from the President's Office.

Publication status:

Published

Subseries AA117.S002.SS014: Board of Trustees, Office of the Treasurer (Schur)

Date: 1948-1976 (date of creation)

Scope and content:

These Treasurer's Office files contain records from the years 1948-1976. The bulk of this collection falls between 1960-1974, when Ira A. Schur was Treasurer.

The types of records in this collection are varied and numerous and they reveal the activities and priorities of the Treasurer's Office over this time. They include: minutes of Board of Trustee meetings and of various committees; correspondence with administration, faculty, other institutions, businesses, governmental agencies, lawyers, and many others; printed reports concerning various aspects of the Hospital; loan requests; employee agreements; and various budgetary reports.

The documentation reveals a few recurring themes. A large percentage of the records concern personnel management. Among the employee related material are: employee agreements and contracts; retirement agreements; data on retirement funds; tax annuity reports; private practice agreements; and comparative studies of executive benefits, perquisites, and salaries. Two sets of folders in the collection relate directly to employee benefit issues. The first contains the files of the Ad Hoc Committee for Executive Benefits, which existed from 1962-1970 to determine appropriate benefits for executive level personnel. They are found in folders labeled "Executive Insurance and Benefits." The second folder group contains the records of the Compensation Committee, which was formed in 1972 (the records continue to 1973) and had similar objectives to that of the previously mentioned Ad Hoc Committee. This second series is found in folders labeled "Compensation Committee."

There are several other subjects that recur in these files. Many documents relate to funds and fundraising, including records concerning funds for the then new Annenberg Building and School of Medicine. There are many documents relating to the tax status of corporations, house staff, executives, and other employees. Also found here is correspondence regarding the incorporation of The Mount Sinai Medical Center and name changes for Mount Sinai School of Medicine. In addition, as might be expected, there are data on expenses and supply costs.

Throughout the collection is correspondence with many prominent Mount Sinai individuals including Gustave Levy, Chairman of the Boards of Trustees; Martin Steinberg, MD, Director of The Mount Sinai Hospital from 1948 to 1969; Hans Popper, MD, Ph.D., Chairman of the Department of Pathology and President/Dean of Mount Sinai; Jack Herman, Director of Development; and S. David Pomrinse, MD, Director of The Mount Sinai Hospital from 1969 to 1977.

The Treasurer's Office hired outside consulting firms to perform many studies. Included in the collection are a compensation study completed by the Martin E. Segal Company (1973) and a Mount Sinai Medical Center report on tax shelter annuity programs conducted by S. B. Ackerman Associates (1973).

Ira A. Schur conducted the majority of his Treasurer's responsibilities from his office at S. D. Leidesdorf and Co. where he worked from 1916 until his retirement in 1969. However, there are many documents that reveal that he also conducted business at Mount Sinai and occasionally from his homes in Manhattan and Scarsdale, New York.

The files contained in this collection are of value for many reasons, one being the level of the office and its importance to the institution. Another aspect that brings value to these records is their relative completeness and comprehensiveness. An examination of these records provides an understanding of the evolution and workings of the Treasurer's Office.

It is difficult to say what gaps the collection may have since the records were not donated directly from the Treasurer's office and contain files only as recent as 1976. However, it is surprising that there is only minimal mention of issues regarding property and no information on banking or evidence of

bank accounts and bill payments, which are all major responsibilities of the office. On the whole, the collection lacks budgetary data. Although it does contain some budgetary reports and financial statements, the majority of the collection is composed of day to day personnel and individually-focused issues.

Subseries AA117.S002.SS006 AA.000862 917912746: Board of Trustees, Office of the Chairman (Gustave L. Levy) records

Creator: Mount Sinai Medical Center (New York, N.Y.). Board of Trustees. Chairman

Date: 1962-1976 (date of creation)

Scope and content:

This collection of Mr. Levy's files are focused on the period 1975-76, with only a few files from other years. Still, they show the type of issues with which the Chairman was involved, including Medical Center personnel and contract matters, fund raising, and interactions with regulatory and government offices. There are also files on internal Board matters. Much of the correspondence is with high level administrative staff, including Thomas C. Chalmers, M.D., President and Dean; S. David Pomrinse, M.D., Director of the Hospital; and Jack Herman, Vice President for Development.

Subseries AA117.S003.SS002 AA.000429 882089193: Clinical Excellence Committee records

Creator: Mount Sinai Medical Center (New York, N.Y.). Clinical Excellence Committee

Date: 1974-1977 (date of creation)

Scope and content:

These files represent an almost complete official record of the Clinical Excellence Committee, the Task Forces, and their subcommittees. The minutes are complete, with only one exception. There are few interim reports or correspondence among the coordinators, the chairmen of the committees, and members. The final report is contained in Box 2, folder 1.

Some of the minutes have notes made by Dr. Thomas Chalmers, President and Dean of The Mount Sinai Medical Center and School of Medicine. The files probably came from that office, although, aside from these few notes, they are generic.

Subseries AA117.S004.SS059.SS004 AA.000549 882089589: Department of Medicine records

Creator: Mount Sinai Medical Center (New York, N.Y.). Department of Medicine

Date: 1966-2013 (date of creation)

Scope and content:

This is a hybrid collection of both paper and electronic material. There are three series: Records; Research Day/Retreats; and Serial Publications. The Records Series includes: residency information; memos; named lecture material including the Berson lecture; and the "Transformations: 2002-2007" report. The Research Day/Retreat series includes programs/abstracts from this event. The Serial Publications series is arranged chronologically and includes the: Gout Research Newsletter (1966-81); Dept. of Medicine (DOM) News, 2008- ; the Dept. of Medicine listserv messages; This Week in Medicine, later titled Next Week in Medicine (NWIM); and assorted newsletters, including Inside Medicine. Both the listserv and NWIM were printed prior to 7/1/2013 when the Archives began retaining them in electronic form only. For later records from the Department of Medicine, see the series under "Mount Sinai Health System. Department of Medicine." Repository includes the departmental listserv (restricted), 7/2013- ; Next Week in Medicine (2013-2015); Inside Medicine (2013-2015). Because electronic records series from the last year of the pre-merger Department

overlap with ongoing series from the post-merger Department, they share a community in the Repository despite being cataloged separately. This collection spans the time period when the following men were Chairmen of the Department of Medicine at Mount Sinai Medical Center: Alexander B. Gutman, MD (1952-1968); Solomon A. Berson, MD (1968-1972); Richard Gorlin, MD (1974-1992); Ira Goldstein, MD (7-12/1992); Barry Coller, MD (9/1993-8/2001); Paul E. Klotman, MD (11/2001-9/2010) and Mark Babyatsky, MD (9/2010-2012).

AA117.S004.SS059.\$ File-VE000	Recording of Department of Medicine Staff Meeting led by Fenton Schaffner, MD, regarding the Professional Standards Review Organization (PRSO) <i>Scope and content:</i> This recording is of a meeting of the Department of Medicine Staff on September 20, 1978. The portion of the meeting that is recorded discusses the Professional Standards Review Organization (PSRO), which is an organization mandated by the Social Security Amendment of 1972, overseeing professional standards related to Medicare, Medicaid, and Maternal and Child Health programs. Mount Sinai began working to follow the guidelines of the PSRO in 1975 and Dr. Fenton Schaffner, who led this portion of the meeting, provided an overview of its implementation. Because they were not properly self-monitoring, Mount Sinai became the responsibility of the New York County Health Services Review Organization (NYCHSRO), the state PSRO, which began monitoring Mount Sinai in June of 1978 for a period of three months. At the time of this meeting, the initial monitoring period was over, but due to continuing issues, NYCHSRO and Mount Sinai decided to continue for an additional three months, due to end in December of 1978. In preparation for this shift in responsibility, Schaffner informed the department of some needed changes, including creating physician advisor positions and including everyone in the process of "[minimizing] the trauma" of this change. They discussed issues having to do with Medicaid and Medicare patient billing, including delays in treatment and the length of admission. Schaffner emphasized the need of attending physicians to maintain detailed charts. Schaffner also described changes being made by the hospital administration. The meeting ended with questions, and Dr. Tom Chalmers, the President and Dean of Mount Sinai, also spoke.	1978-09-20	1 cassette

This series includes publications; brochures; CUNY Master Plans; graphics and trademark information; and information on creating various Mount Sinai internal publications. One box is devoted to the activities around the celebration of the dedication of Mount Sinai School of Medicine in October 1968 (dedication day). There were several events associated with this, including a symposium with four Nobel laureates: Francis Crick, George Beadle, Sir Peter Medawar, and Linus Pauling. There is correspondence here with each man about their participation. A copy of the January 1970 issue of Fortune Magazine, containing an article with photographs of Mount Sinai and highlighting the then Director, Dr. S. David Pomrinse, is oversize and stored in the large box on C 15. It also includes a feature on Leon Hess, a Mount Sinai Trustee from 1966 until his death in 1999. There is also an oversize poster for the Doctor Referral Service, 1-800-MD-SINAI stored in the Map Case, D2, G 11.

Subseries AA117.S004.SS050.SS003 AA.000925 929893914: President of the Medical Center (Kenneth L. Davis, MD) records

Creator: Mount Sinai Medical Center (New York, N.Y.). Office of the President

Date: 1984-2013 (date of creation)

Scope and content:

This series contains a limited number of records of the Office of President of The Mount Sinai Medical Center. These files relate to the selection and tenure at Mount Sinai of senior leaders such as John W. Rowe, MD, Arthur H. Rubenstein, M.B.B.Ch., Kenneth I. Berns, MD, Ph.D., and Larry Hollier, MD, but primarily during the tenure of Kenneth L. Davis, MD. Some of the material includes personal and contractual information and so these files are closed for a period. There is material about the dissolution of Mount Sinai New York University Health. There are also printed speeches and reports. The Records of the President of the Mount Sinai Health System are a separate series.

Subseries AA117.S004.SS050.SS004 AA.000923 929024206: President of the Medical Center and Dean of Mount Sinai School of Medicine, George James, MD records

Creator: Mount Sinai Medical Center (New York, N.Y.). Office of the PresidentMount Sinai School of Medicine. Office of the DeanJames, George

Date: 1961-1974 (date of creation)

Scope and content:

These are the office files of George James, MD, the President and Dean of Mount Sinai from 1965 until his sudden death in 1972. Hans Popper, MD, PhD was appointed Acting Dean and President when James died. Dr. Popper maintained his office in the Atran Building and came to the President's Office on the 8th floor of 1184 Fifth Avenue each day to conduct whatever business was necessary. This served to provide continuity in the files and many of the folders extend to 1973 when Thomas C. Chalmers was appointed Dean and President. His files form a separate series.

An oversize framed photograph of the 1965 New York City Board of Health members at a conference table was placed in the Map Case Drawer 5, Group 15. Shown are Samuel Z. Levine, MD, Lewis Thomas, MD, George James, MD, Louis Loeb, LLB, and John Heller, MD

Subseries AA117.S004.SS050.SS007 AA.000333 882088905: President of the Medical Center, John W. Rowe, MD records

Creator: Mount Sinai Medical Center (New York, N.Y.). Office of the President Rowe, John W. (John Wallis), 1944-

Date: 1973-2001 (date of creation)

Scope and content:

This collection of papers from Dr. Rowe's office is different from previous Presidents' collections, providing a higher level view of Mount Sinai. There are very few files relating to the various departments of the Medical School or the Hospital as is seen in earlier President's files. There is also little here relating to the Hospital's establishment of the Mount Sinai Health System, although the merger with New York University is covered. This is undoubtedly due to the fact that Dr. Rowe served as President of the Mount Sinai Medical Center only. Earlier Presidents had also been Dean of the School of Medicine and so had oversight over these departmental or institution specific issues. There is a great wealth of material regarding Mount Sinai's efforts vis-à-vis other institutions. This includes proposed initiatives with Columbia University, the affiliation with the City's Queens Hospital Center and the years of controversy over privatization of the Queens' municipal hospitals, and the School of Medicine's affiliation contracts with Elmhurst and Queens Hospitals. There are also files relating to the Department of Geriatrics and the development of creating ties with businesses and Keio University in Japan.

The merger with New York University is documented by two distinct series of files that were received and processed separately. The "MS-NYU Initiative" files (boxes 24-25) cover the initial proposal, development and implementation of the merger. The "NYU" files (boxes 27-28) document Dr. Rowe's service as President of the combined Mount Sinai-NYU Health following the merger and include departmental correspondence, real estate / building records, and an extensive collection of material related to the NYU Downtown Hospital.

Mount Sinai's real estate holdings and physical facilities are documented by an extensive subject file on buildings (BLD, boxes 4-6), and its financial activities by a finance series (FIN, boxes 13-14) and an extensive series on fundraising (FND, boxes 15-20.) There is a small amount of material related to Mount Sinai School of Medicine (box 26), primarily covering commencements, convocations and honorary degrees.

Also of importance are the extensive files on the search for a new Dean in 1996/97, the many files charting Mount Sinai's efforts to deal with the rise of AIDS in New York, and the files on establishing the Office of Technology Transfer and its later efforts, a matter of great importance to institutions in the late 20th, early 21st century.

Subseries AA117.S004.SS050.SS048 AA.000986 936554225: Office of Professional Services, Milton Sisselman records

Creator: Mount Sinai Medical Center (New York, N.Y.). Office of Professional Services

Date: 1959-1992 (date of creation)

Scope and content:

This series contains records from the Office of President of The Mount Sinai Medical Center, created by Milton Sisselman as his role evolved over time. Sisselman was the Vice President for Coordination and Planning and as such oversaw the planning and policy analysis functions. He was specifically in charge of the project that built the Annenberg Building for the new Mount Sinai School of Medicine. He later was named the Vice President for Professional Services and helped establish and manage the Faculty Practice Associates. He reported directly to the President, initially George James, MD (1965-72) and then Dr. Thomas C. Chalmers (1973-83).

AA117.S006.SS001.HIM02	<p>Rosenfield, Richard: "History of transfusion of blood and blood products"</p> <p><i>Creator:</i></p> <p>Rosenfield, Richard E.</p> <p><i>Scope and content:</i></p> <p>In this History of Medicine lecture delivered in February 1973, Dr. Richard E. Rosenfield -- the Director of the Division of the Blood Bank and Clinical Microscopy, Professor of Pathology, and a clinician in the department of hematology at Mount Sinai -- maps the change of blood transfusions over a period of fifty-five years, culminating in 1947, the year Dr. Rosenfield began at Mount Sinai. This time span charts when blood transfusions changed from being "a procedure, often of very dubious value, to the present situation where it really is a special therapeutic measure." Throughout his lecture, Dr. Rosenfield discusses the research and achievements in this field of physicians and researchers at Mount Sinai. Dr. Albert Lyons, a surgeon at Mount Sinai, introduced Dr. Rosenfield. Dr. Rosenfield accepted questions at the end of his lecture and at this point, Dr. Peter Vogel, Dr. Burrill Crohn, and Dr. Allen spoke.</p> <p><i>Conditions governing use:</i></p> <p>Contact the Archives (MSArchives@mssm.edu) for information regarding copyright.</p>	1973-02-13	1 reel-5"

AA117.S006.SS001.FILM02106	Lyons, Albert S.: "History of Thoracic Surgery at MS" <i>Creator:</i> Lyons, Albert S., 1912-2006 <i>Scope and content:</i> Albert S. Lyons, MD (1912-2006) was a surgeon at Mount Sinai School of Medicine and The Mount Sinai Hospital from the 1940s until his death. Starting in the 1960s, he also served as the historian and then archivist for the institutions. In that role, he served as a resource on the history and would answer questions from researchers. He recorded this tape to provide information about the history of thoracic surgery at Mount Sinai. Dr. Lyons discusses the following Mount Sinai surgeons: Howard Lilienthal, MD; Harry Wessler, MD; Amiel Glass, MD; Harold Neuhof, MD; Sidney Yankauer, MD; John Garlock, MD; Albert A. Berg, MD; and Paul Kirschner, MD. <i>Conditions governing use:</i>	1987	1 cassette (03:53:00)
