Prof. A. Jacobi

210 West 34 St.  
New York City.

Dear Prof.: - Dr. Swift writes  
me that you were not certain  
about my desiring the position  
of intern in Mt. Sinai. Now I  
desire to have this position very  
much and if you should think  
me worthy of it I will be most  
happy to devote my attention to  
the interests of the hospital for  
the next two years.

I am now practicing  
and should like to continue  
in the country until Nov. 1 - after  
which time I am at your disposal.

Yours to command

Dr. C. M. Coy.
